

Broadband Brainstorm

1. What wild areas do you have nearby (or in your county?) Are there problems with protecting them? What can you do to help? (ie riparian areas, any open space....)
2. What are your strong points? Can you speak well in front of groups? Can you motivate others to volunteer?
3. How can you use your strengths to build a Broadband which motivates others to help protect our wild lands and open areas?
4. Brainstorm projects and fundraisers you would like to do in your area! Think creatively! What would be a good beginning for your Broadband? What resources do you need?
5. What are your priorities in your Broadband? What type activities do you want to spend most of your time on? (ie fundraising and/or field work and/or education and/or lobbying...)
