National Broads, I attending a two session webinar from Sierra Club on crafting comments for both Public Rules. They used the Public Narrative format, where you format comments/conversations to include: I am/We Are, values and vision (the storytelling part), then The Moment, The Problem, The Solution, The Action (or ask). I'm attaching what I submitted for the FS ANPR. Feel free to use this an example, as you see fit.

I can also forward the link to the SC webinars. Let me know.

Sallie Thoreson
